

**Informing Science:
the International Journal of
an Emerging Transdiscipline**

*An Official Publication
of the Informing Science Institute
InformingScience.org*

Inform.nu

Volume 24, 2021

Editor-in-Chief: Eli Cohen, Informing Science Institute, USA

Publisher: Elizabeth Boyd, Informing Science Institute, USA

Editors:

Kay Fielden, Unitec, New Zealand

Scott J. Lloyd, University of Rhode Island, USA

Peter Rittgen, University of Borås, Sweden

The purpose of the journal **Informing Science** is to provide a better understanding of fields that inform their clientele. These fields include information systems, library science, journalism in all its forms, and education. Even though these fields developed separately and are taught across campus, they are evolving into the new discipline of **Informing Science**.

Informing Science publishes articles that provide insight into how best to inform clients using information technology. Authors may use epistemologies from engineering, computer science, education, psychology, business, anthropology, and such. The ideal paper will serve to inform fellow researchers, perhaps from other fields, of contributions to this problem.

Informing Science is an academically peer-reviewed open-access journal. All submissions are blind refereed by three or more peers. Articles are published online on the web site <http://inform.nu>

The Informing Science journal is listed in Cabell's Directory of Publishing Opportunities in Educational Curriculum & Methods, Cabell's Directory of Publishing Opportunities in Educational Technology & Library Science, Cabell's Directory of Publishing Opportunities in Management, EBSCO, Information Science Abstracts, INSPEC, Directory of Scholarly Electronic Journals and Academic Discussion Lists, Ulrich's Periodicals Directory.
